

## eRECORDS FOR FAMILY HISTORY by Cora Num

This book is designed to introduce the reader to eRecords, original records that have been digitised and placed online either as individual records, part of historical collections (free and paid) or via portals that offer searches across multiple online collections.

eRecords offer fully searchable, unprecedented research possibilities using your PC, tablet or smartphone, whenever and wherever you are. This must have book has lots of practical advice and tips on how to find and use eRecords for family history research. It also explains how to organise, manage and backup your digital data and eRecords.
